### **COMPATIBILITY**

It is recommended to perform a compatibility test with other products before mixing and to perform small scale crop trials before using the product.

# **STORAGE**

Keep in the original pack. Ensure packaging is sealed and kept in dry conditions. Do not expose to direct sunlight. Storage temperature must be between 41° and 104°F (5° and 40°C).

# DISPOSAL

Dispose of product and packaging in accordance with local law. Information regarding the contents and levels of metals in this product is available on the internet at

http://www.aapfco.org/metals.html

# LIABILITY

The company limits its liability strictly to composition, formulation and content. Always read the label before use and use proper protection when handling the product. In case of mixing, contact the company's technical service. The user will be responsible for any damage caused (lack of effectiveness, toxicity in general, residues) by total or partial non-observance of the instructions on the label.

Information about the components of this lot of fertilizer may be obtained by writing to Agri Sciences Biologicals at Clematislaan 51, 2241 JB, Wassenaar Netherlands and giving the lot number which is found on the bottom of the container label.
